© The Etches Collection

Featuring Dr Steve Etches MBE & Professor Alice Roberts.

15th May— 18:00

Wodensborough Ormiston Academy

Hydes Road, Wednesbury

Free event
-booking is
essential!

Dr Etches is a plumber, fossil collector and preparator in Kimmeridge, on the Isle of Purbeck. The scientific importance of his stunning collection of fossils from the Late Jurassic period can't be overstated, with many world firsts among them.

Join us as we learn about the stories of the finds, their painstaking extraction and preparation, to reveal the secrets of these amazing fossils; how they lived, bred and died in the seas of Kimmeridge, 157 million years ago.

For more information on how to book please see our website.
